

PARODY MECHANICAL SOLUTIONS LLC

On-site maintenance, diagnostics, and repair of electrical, hydraulic, and mechanical systems for commercial fleets, heavy equipment, and industrial transportation.

Mobile field service based in Tooele, Utah — adjacent to Tooele Army Depot, within operating range of Dugway Proving Ground and Hill AFB. Repairs performed where the equipment sits: no tow, no shop queue. Statewide coverage.

Address	Tooele, Salt Lake and All the State of Utah
Website	www.parody-mechanical.us
Service Area	All the State of Utah
Response	Hours, 9 AM – 10 PM

CORE COMPETENCIES

- Fleet maintenance programs** — Preventive, corrective, and predictive maintenance for heavy-duty diesel trucks, gasoline vehicles, and utility fleets.
- Roadside and on-site mobile repair** — Fully equipped mobile units for on-highway and in-field response, reducing commercial vehicle and heavy equipment downtime.
- Electrical diagnostics and repair** — Short-circuit tracing, alternators, connectors, sensors, and industrial wiring.
- Hydraulic and high-pressure systems** — Hoses, pressure pumps, cylinders, and heavy equipment control systems.
- Heavy equipment and engine service** — Deutz TCD 2015 V06 (Soilmec SR 70 / SR 80), Caterpillar C13 and C9, and Liebherr crawler excavators (HS 855 HD, HS 885, HS 8100.1, HS 8130 HD).

PAST PERFORMANCE

S3 Transportation — FedEx Ground contractor

Fleet maintenance and roadside support for a 33-unit step van fleet: Ford E350 (700 cu ft) and Freightliner MT55G (600 cu ft), GVWR 10,001–23,000 lbs.

- TYPE: Labor-Hour
- Reference: Mackey - 8019211043

OWNER EXPERIENCE

Ten years providing commercial fleet maintenance and roadside repair prior to forming the company.

DIFFERENTIATORS

- Manufacturer-specific** heavy engine capability — Deutz, Caterpillar, and Liebherr work that general repair shops refer out.
- Repair at the point of failure** — mobile units eliminate tow cost and shop queue time on mission-critical equipment.
- Positioned in Tooele County** — direct access to federal installations most Wasatch Front vendors reach only after a long transit.
- Single point of accountability** — the owner performs and supervises the work; no subcontracted diagnostics.
